

NDF trading at Euronext Markets Singapore

EURONEXT FX

Euronext FX, the fastest ECN globally for Spot FX trading, continues to expand its footprint in Asia Pacific. In 2019, Euronext FX launched a matching engine in Singapore, adding to its existing matching engines in New York, London and Tokyo. This development follows the Monetary Authority of Singapore's (MAS) aim to enhance e-FX trading in the region and echoes the increasing number of global market participants moving pricing engines to Singapore.

Through its subsidiary **Euronext Markets Singapore**, a Regulated Market Operator (RMO) by the MAS, Euronext FX now enables the trading of Non-Deliverable Forwards (NDFs), significantly complementing its offering with Derivatives products. Being uniquely located in the region, FX clients can therefore access an expanded pool of buy-side and sell-side NDF liquidity through a regulated trading venue.
